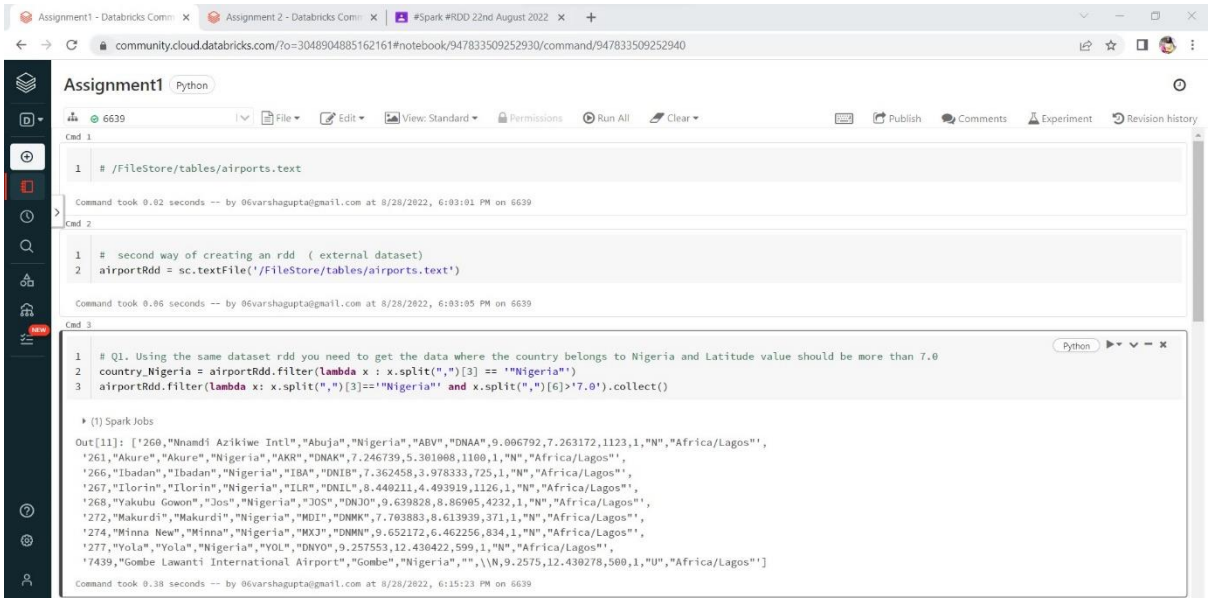
Task-18

Name: Varsha Gupta

Referral id: DIRSS3129

Q1. Using the same dataset rdd you need to get the data
where the country belongs to Nigeria and Latitude value should be more than 7.0
(here the 7.0 should be only and only float type in filter)



Q2. Using the same dataset rdd, try to filter the data where country belongs to Germany
- Final result only take the airporId, airport Name
(means only 1st & 2nd column)
